These potent blends of active ingredients deeply penetrate the epidermis, promoting detoxification and accelerating regeneration through facial massage techniques tailored to your skin's needs.

During the mask application, your esthetician will offer a foot, hand, or scalp massage based on your preference.

HIGH COUTURE TREATMENT RADIANT MAJESTY OF THE LYS

Rejuvenate, correct pigment imperfections, and restore luminosity to your complexion with the lys, a flower of exceptional purity. The Majestic Lys complex serves as a brightening agent, working to prevent and diminish brown spots. It evens out the complexion and revives youthful radiance in the skin.

The lymphatic drainage technique will stimulate circulation through gentle, slow, and light pressures across the entire face. This delicate manual technique boosts your immune system, aids in toxin elimination, regenerates and firms tissues, contributing to an enhanced skin appearance. Your skin will become clearer, brighter, and more radiant. Lymphatic drainage also offers a soothing effect.

As a result of this treatment, your skin will be revitalized, pigment imperfections will be mitigated, your complexion will be illuminated, and your skin will feel both fresh and radiant.

1 hour 30 minutes - €170

ANTI-AGING WITH PRESTIGIOUS ORCHID AND HYALURONIC ACID

This prestigious ritual combines the orchid, a fabulous source of youth, with the traditional Japanese lifting technique for a truly astonishing rejuvenating effect. The Prestigious Orchid complex, infused with hyaluronic acid, delivers an incredible anti-aging power. It maintains skin firmness and elasticity while revitalizing its stem cells and reactivating collagen production.

Kobido, an ancient Japanese lifting technique, is a true ballet of movements that alternate between gentleness, intensity, depth, and lightness. It stimulates microcirculation, lymphatic and blood flow, resulting in a genuine lifting effect. This one-hour facial massage intensifies the effects of the orchid treatment, providing a deeply rejuvenating and profoundly serene experience.

A massage for the hands, feet, and scalp will beautifully complete this moment of serenity. Your skin will appear younger, established wrinkles will be diminished, facial contours will be refined, and your skin will be smoothed, plumped, leaving you exceptionally relaxed.

LOMI LOMI: DEEPLY RELAXING, REVITALIZING

Also known as the Hawaiian massage, this technique offers complete relaxation and well-being for the body and mind. With its broad, gentle, deep, and rhythmic movements reminiscent of waves and the sea, this massage resembles a dance that soothes, frees, stimulates, invigorates, detoxifies, and brings about a sense of joy.

It's particularly suitable if you're feeling stressed, irritable, anxious, or if you simply desire an extraordinarily relaxing massage..

AYURVEDIC ABHYANGA: REBALANCING, HARMONIZING

This ancient Indian massage is primarily a holistic and rebalancing treatment that enhances concentration and aids in emotional management. It's based on the chakras, the body's seven energy centers. Through circular pressures, friction, acupressure, stretches, and its moderate and flowing rhythm, it brings relaxation and harmony to your body.

It's especially suitable if you're seeking overall well-being for both your mind and body, and if you aim to invigorate your body and increase your vital energy.

STRESS FREE: RELAXATION AND EASE

No need to undress for this massage. A blend of Balinese and Indian techniques allows you to release tension, soothe, and eliminate sensations of stress and heaviness in the neck, back, and arms.

This massage of the head, hands, and feet essentially encompasses the entire body. The head, being the center of the nervous system, soothes the entire body. The hands house nerve endings as well as reflex points connected to organs in the body. Foot massage and its reflex points have effects on organs.

It's particularly suitable if you prefer not to undress, have limited time, experience back or neck discomfort, have wear and tear on ligaments and tendons in the hands, suffer from insomnia, or are dealing with stress.

THE DUO WITH SWEET ORANGE BLOSSOM SUN-KISSED SOFTNESS

If you're looking to share a moment of relaxation and tranquility with a friend, partner, or loved one, our duo room is perfect for creating a gentle bond. Whether it's a session for two friends, a couple, or any cherished companions, this environment is ideal for fostering a sense of shared serenity.

DEEP TISSUE: ENERGIZING, RELAXING, INVIGORATING

Originating from Canada, this massage is gaining popularity due to its effectiveness in addressing muscle soreness. It improves both blood and lymphatic circulation. This methodical and profound massage enlivens the entire body, targeting fascia, muscles, tendons, and ligaments. When performed with more depth, it alleviates muscular tensions, decongests tissues, and encourages muscle relaxation. When executed more gently, it offers profound relaxation by releasing surface tensions.

It's particularly ideal during the winter season, as the numerous frictions bring warmth to the body and mind. Additionally, it's beneficial if you're an athlete or if you're dealing with chronic pain.

THE SENSORY EXFOLIATION

20 MINUTES
€60

Thanks to its exfoliating action, the scrub removes impurities and toxins from the surface of your body.

It renews the radiance of your skin, purifies, softens, and leaves it smooth and silky. It's an ideal preparation before a massage, as it welcomes and optimizes the benefits of the active principles in our oils and traditional techniques
